Short Description of the
Company

The mission of our company is concerned with searching new, innovative information technology fields. In the 90's we have worked on development of ERP systems and specific HW components. In new millennium we centralized on constructing loyalty systems and schemes. In the last 3 years our main focusing is concerned with NFC technology.

Adamsoft is a leading company on field of NFC business solutions. We develop NFC solutions, which aren't only "market interesting", but present an important competition advantage for its users. With our solutions we direct and accelerate development of NFC society and build grounds of future business models.

Other
