

"G. VERONESI" PRIVATE SCHOOL

Rovereto

The private school named "G. Veronesi" (a not-for-profit institution), started its life as an elementary school in Rovereto (the secondary school was founded in 2006) thanks to the efforts of a group of parents, who wanted quality teaching for their children and a strong bond between school and family.

Some of these parents, who were also teachers, decided to get directly involved by using their professional skills; colleagues, who had the chance to work with them and to witness their motivation and experience, contributed with their competence and sensitivity, creating a synergy that is still working today.

Today there are 200 students; the primary school building is located in via Saibanti n°6, whereas the secondary school building is located in via Balista n°19, in Rovereto.

What we care about most is encouraging children to become active, alert youngsters, who are then able to grow up facing reality with optimism, whilst striving to find its meaning.

We feel that this can be well explained by Antoine de Saint- Exupéry:

"If you want to build a ship, don't drum up the men to gather wood, divide the work, and give orders. Instead, teach them to yearn for the vast and endless sea."

Our teaching strategy is based on guided learning, and is focused on the ability to reason, to wonder, to accept mistakes as an opportunity to gain knowledge and self-awareness, which we consider crucial for learning and for living.

Our teaching proposal takes every student into consideration, working on each special ability and personality, nurturing them along their own path as protagonists, through reason and passion. It is based on an unitary conception of knowledge and focuses on learning through experience.

Italian and mathematics are considered the fundamentals of learning, but at the same time every different mode of expression is appreciated, because, through them, characters grow and express themselves. Foreign languages are particularly important, taught by experienced teachers and native speakers.

Cultural, artistic and scientific opportunities offered by the surrounding realities are always taken into consideration and incorporated into the global education of the students.

The school is named after Giuseppe Veronesi, a man very well known for his faith and his social and political engagement, who encouraged the foundation of the school with his affectionate support.
